Common Questions and Answers in the Everfi Credit Score Module

1. How is a credit score calculated?

Answer: A credit score is calculated based on various factors from your credit report, with the most influential being payment history and amounts owed. Credit bureaus like FICO and VantageScore analyze data such as your payment records, credit utilization, length of credit history, types of credit accounts, and recent inquiries to generate your score.

2. What is a good credit score?

Answer: Generally, a credit score above 700 is considered good, and scores above 800 are considered excellent. Scores below 600 are viewed as fair or poor, which may make it more challenging to qualify for favorable loan terms.

3. Why is my credit score important?

Answer: Your credit score affects your ability to get approved for loans, credit cards, rental housing, and even certain jobs. A higher score often leads to better interest rates and more favorable loan terms, saving you money over time.

4. How often should I check my credit report?

Answer: It is recommended to check your credit report at least once a year to ensure accuracy,

detect identity theft, and monitor your credit health. Many free services, including annualcreditreport.com, provide free reports from major bureaus.

Answer: Late payments, high credit utilization, opening multiple new accounts, defaulting on loans, and having errors or fraudulent activity on your report can all harm your credit score.
